

CommVault® Simpana™ Health Check

The Transam CommVault Simpana Health Check proactively examines your implementation of Simpana backup and recovery software in terms of its performance, functionality and value as a business tool. The main areas of focus for the service include:

<p>Operational Issues Assessment</p> <ul style="list-style-type: none"> ❖ Identify business requirements and issues and relate to the software's capability
<p>Software Inventory and Compatibility Review</p> <ul style="list-style-type: none"> ❖ Collect Software/Firmware release levels, validate against supported system requirements and against recommended levels
<p>CommCell Review</p> <ul style="list-style-type: none"> ❖ CommCell Configuration, validation and review of Critical Events / Logs
<p>Applications and Configuration Review</p> <ul style="list-style-type: none"> ❖ Validate Applications backup/restore/recovery requirements against current operation ❖ Verify desired backup policies against actual Simpana Storage Policies, Scheduling, and Media Management configuration.
<p>Operational and Scalability Review</p> <ul style="list-style-type: none"> ❖ Overall review of backup/restore successes, failures, root-causes, data protection window utilisation ❖ Performance and Load analysis and review environment against CommVault Systems' developed Scalability and Sizing Guidelines ❖ Analysis of existing and applicable Simpana reports and configuration data

Our Approach

Analysis Phase

One of our CommVault Simpana consultants will work with you to:

- ❖ Understand your issues and business requirements
- ❖ Perform a detailed analysis of your CommVault Simpana configuration and its entire environment

Reporting Phase

- ❖ Produce a report documenting our findings and recommendations
- ❖ Meet with you to present and discuss our findings and recommendations

Proposal Phase

Having obtained your feedback, if required, we can produce a firm proposal together with an outline project plan and estimated costs to implement our recommendations.

Transam's Qualifications and Experience

- ❖ Specialists in CommVault Simpana
- ❖ Leading provider of support for CommVault Simpana
- ❖ CommVault Gold Partner and Microsoft Gold Partner
