

Microsoft® Active Directory® Health Check

Transam offers a health check service on currently installed Active Directory systems

Active Directory Performance Problems

One of the most critical and challenging aspects of today's networked computing environments is ensuring that all network services are functioning optimally. The Transam Active Directory Health Check proactively examines your network resources to determine the health of your infrastructure and that all resources are readily available and performing as expected. Some of the areas we investigate include:

- ❖ Correct placement of FSMO roles
- ❖ Efficient replication topology
- ❖ DNS (Domain Name Server) Structure & Integrity
- ❖ Inappropriate site topology and connectivity
- ❖ Potential insecurities within network infrastructure
- ❖ Non-efficient management leading to increased administration burden

Our Approach

Analysis Phase

One of our Microsoft consultants will work with you to:

- ❖ Understand your current installations and work with you to determine if there are deficiencies, aligned to your business requirements
- ❖ We will assess your current environment for fault tolerance and help you understand how you can achieve the required high availability
- ❖ Advise on the best use of Group Policy to simplify management and enhance security.

We use this service will help you verify that your Microsoft directory service is healthy, and that you have good practices in place, so your directory service is reliable and robust.

Reporting Phase

In this the phase we:

- ❖ Produce a report documenting our findings and recommendations
- ❖ Meet with you to present and discuss our findings and recommendations

Proposal Phase:

Having obtained your feedback, using a day of free consultancy, we can produce a firm proposal with estimated costs to implement our recommendations.

Transam's Qualifications and Experience

- ❖ Microsoft Gold Certified Partner
- ❖ MCSE (Microsoft Certified System Engineers) and MCSA – Messaging consultants
- ❖ Combined experience of over 40 years
- ❖ Experience within a wide range of industries including legal, financial, publishing and media, property management, government and health organisations.
